

## About Me

I am a dedicated Full-Stack Web Developer with a specialization in .NET Core, proficient in creating robust Web API or MVC solutions, seamless integrations, and fully functional websites. With a comprehensive skill set spanning both front-end and back-end technologies, I excel in delivering dynamic and responsive web applications.

Additionally, I have extensive experience in developing full-featured mobile applications using Flutter, ensuring a consistent and high-quality user experience across platforms.

## Education

### Bachelor of Science (Hons) In Software Engineering With Multimedia

2019 - 2022

Limkokwing University

## Work Experience

### Web Developer Freelancer

2021 - current

- This experience allowed me to showcase my proficiency in both front-end and back-end development while delivering robust solutions tailored to user needs and industry standards across many projects using .NET Core.

### App Developer Independent

2020 - 2021

- I have developed various high-performing mobile applications using Flutter, delivering seamless user experiences across both iOS and Android platforms.

### Game Developer Independent

2018 - 2020

- I have created a diverse portfolio of indie games, dedicated to delivering unique and immersive experiences through creative design and innovative gameplay mechanics.
