👤 About Me

I am a dedicated Full-Stack Web Developer with a specialization in .NET Core, proficient in creating robust Web API or MVC solutions, seamless integrations, and fully functional websites. With a comprehensive skill set spanning both front-end and back-end technologies, I excel in delivering dynamic and responsive web applications. Additionally, I have extensive experience in developing full-featured mobile applications using Flutter, ensuring a consistent and high-quality user experience across platforms.

My expertise in database management, combined with a strong foundation in software development principles, enables me to build scalable and efficient applications that meet diverse business needs.

🎓 Education

Bachelor of Science (Hons) In Software Engineering With Multimedia
2019 - 2022
Limkokwing University

💼 Work Experience

Mobile Apps freelance
2021-2024
Mobile Application Developer

- I have developed various high-performing mobile applications using Flutter, delivering seamless user experiences across both iOS and Android platforms.

Website Projects freelance
2020-2020
Full-Stack Web Developer

- This experience allowed me to showcase my proficiency in both front-end and back-end development while delivering robust solutions tailored to user needs and industry standards across many projects using .NET Core.
